ASSESSMENT TOOL DEVELOPMENT

The Assessments are based on the following topics, each topic divided into grades, (SS1, SS2 and SS3) covering basic, intermediate and advanced digital skills.

ASSESSMENT TOOL DEVELOPMENT

The Assessments are based on the following topics, each topic divided into grades, (SS1, SS2 and SS3) covering basic, intermediate and advanced digital skills.

Foundational Computer Skills

(use of computers and digital mobile devices)

SS1: BASIC CLASS

Q1 Which of these devices is not a computer?

a) A desktop
b) A laptop
c) A tablet
d) A monitor

Q2 Which of the following parts of a computer is considered an input device?

a) Speakers
b) Screen
c) Keyboard
d) Motherboard

Q3 Computers are used in which of the following?

a) Automobiles
b) Airplanes
c) Street lights
d) All of the above

Q4 Computers are used by which of the following professions?

a) Business
b) Art
c) Education
d) All of the above

Q5 A keyboard is an example of a _____ device.

a) Input
b) Output
c) Storage
d) Memory

Q6 Logging off your computer will close any open programs?

a) True
b) False
c) Not True
d) None of the above

Q7 Garba buys a new printer. She wants to connect it to her home computer. Which of the following parts of the computer can she use to connect the printer to the computer?

a) Graphics card
b) Modem
c) FireWire
d) Universal serial bus (USB)

Q8 Musa creates a science project on his school computer. The project includes some documents and two graphics. He wants to work on these files on his home computer.

Musa wants to use a storage device to save the project files and take them home. Which of the following devices will he use to save the files?

a) Monitor
b) Compact disc (CD)
c) Printer
d) Speaker

Q9 Anas uses his computer to create his monthly household budget. Which part of his computer will perform the calculations for his budget?

a) Monitor
b) Digital versatile disc (DVD)
c) Central processing unit (CPU)
d) Hard disk

Q10 The computers in your office are connected to a network. Which part of the computer is used to connect the computer to the network?

a) Monitor
b) Network card
c) Headphone
d) Memory

Q11 You want to use your computer to create a document. When you turn on the computer, which of the following software will start first?

a) Operating system
b) Word processor
c) Calculator
d) Media player

Q12 James wants to use his computer to create a presentation for his office meeting. In what order will James perform the following steps when he starts working with the computer to create his presentation? List the steps below in the order in which James will perform them.

Steps:

I. Log on to the computer.
II. Create the presentation.
III. Turn on the computer.
IV. Save the changes.
V. Start the presentation program.

Options:

a) I, II, III, IV & V
b) III, I, V, II & IV
c) II, III, V, I & IV
d) III, I, IV, V & II

Q13 Aisha completes all of her office tasks for the day and is ready to leave for home. List the steps below in the order in which Aisha will perform them to securely turn off the

computer.

Steps:

I. Close the program.
II. Save her work.
III. Turn off the monitor.
IV. Log off from the network.
V. Shut down the computer.

Options:

a) I, II, III, IV & V
b) III, I, V, II & IV
c) II, I, IV, V & III
d) III, I, IV, V & II

Q14 Your niece does not know how to start Microsoft Word. She asks you for help. How will you help her to start the program? List the steps below in the order in which you will perform them to start Paint.

Steps:

I. Click All Programs.
II. Click Word.
III. Point to Accessories.
IV. Click Start.

Options:

a) IV. III, II & I
b) I, II, III % IV
c) II, III, I & IV
d) IV, I, III & II

Q15 You create a business report on your office computer. You want to take a break for five minutes. Before you leave your computer, what will you do to ensure that your recent changes are not lost?

a) Shut down the computer.
b) Turn off the monitor.
c) Save the report.
d) Print the report.

Q16 Adams buys a new computer. He wants to know which group of keys on the keyboard he can use to move the insertion point up, down, right, and left in a document. Which of the following groups of keys will Adams use to move the insertion point?

a) Navigation
b) Function
c) ENTER or RETURN
d) Alphanumeric

Q17 Isah creates a document by using a word-processing program. He wants to type text in a new line in the document. Which of the following groups of keys will Isah use to create a new line?

a) ENTER or RETURN
b) Function
c) Alphanumeric
d) Command

Q18 You type an e-mail message. You want to erase some redundant text from the message before you send it to your manager. You select the text that you want to erase. Which of the following keys on the keyboard can you use to remove the unwanted text that you selected?

a) PAUSE
b) SHIFT
c) BACKSPACE
d) ALT CTRL

Q19 You type a job application by using a word-processing program. Which of the following groups of keys on the keyboard will you use to add punctuation marks in the application?

a) Special
b) Command
c) Navigation
d) Function

Q20 Merry wants to write a letter to her friend by using a word-processing program. Which of the following groups of keys will she use to type the name of her friend in the letter?

a) Alphanumeric
b) Numeric
c) Function
d) Command

Q21 You create a graphic in Microsoft Paint, and you want to change parts of the graphic. Which of the following input devices will you use to draw lines and other shapes in Paint?

a) Keyboard
b) Web cam
c) Microphone
d) Mouse

Q22 You buy your favourite music CD and want to listen to it on your computer. When you reach home, you see your sister is sleeping in the computer room. Which of the following hardware components will you use to listen to the CD without disturbing your sister?

a) Web cam
b) Speaker
c) Microphone

d) Headphones

Q23 Abigail wants to use her computer to record her voice. Which hardware component of the computer will she use to do this?

a) Speaker
b) Microphone
c) Headphones
d) Scanner

Q24 You are paying for your visit to a doctor in a hospital. You ask for a payment receipt. Which hardware component can produce your payment receipt on paper?

a) Microphone
b) Display adapter
c) Scanner
d) Printer

Q25 You want to type text to create a story in a word-processing program. Which of the following hardware components will you use to do this?

a) Keyboard
b) Printer
c) Modem
d) Web cam

SS 2: INTERMEDIATE CLASS

Q1 Julia creates a project that includes several illustrations. She draws the illustrations in a notebook. She needs to capture the illustrations from the notebook and save them on her computer. Which of the following hardware components will she use to capture the illustrations?

a) Modem
b) Microphone
c) Speaker
d) Scanner

Q2 Shift is a _____ key

a) Navigational key
b) Numerical key
c) Alphanumeric key
d) Special key

Q3 Which mouse button most commonly opens items?

a) Left
b) Right
c) Middle
d) Wheel

Q4 What does the right mouse button most commonly do?

a) Open Items
b) Perform Tasks
c) Display a menu
d) None of the above

Q5 What does PC stand for?

a) Profile Computer
b) Personal Computer
c) Personal Common
d) Professional Computer

Q6 Salis wants to get a computer that is portable but as strong as a desktop computer, what should he get?

a) Tablet
b) Smartphone
c) Laptop
d) Desktop

Q7 The CPU acts as the _____ of a computer.

a) Heart
b) Blood
c) Brain
d) All of the above

Q8 What does GUI stand for?

a) Generate User Input
b) Graphical User Interface
c) General User Interface
d) Graphical User Input

Q9 Billy buys a new computer that has an operating system on it. She wants to know about the operating system and its functions. Which of the following explanations will you use to describe the functions of an operating system to Billy?

a) Takes pictures
b) Manages hardware and software
c) Scans images
d) Prints documents

Q10 Ken wants to know about the term software. Which of the following explanations will you use to explain the term software?

a) Physical components of a computer system
b) A piece of information
c) Instructions that make hardware work
d) Rules that enable computers to connect with one another

Q11 In Windows 10, which menu of the Settings app manages the accessibility settings?

a) Devices
b) Network and Internet
c) Ease of
d) Privacy

Q12 You can use the portable storage devices to:

a) Improve storage abilities of your computer
b) Transfer files from computer to another computer
c) Save a copy in a safe location
d) All of the above

Q13 What determines the speed at which your computer performs tasks?

a) RAM
b) CPU
c) Hard Disk
d) Video Card

Q14 You modify a document that is saved on your computer. Where are the changes stored until you save the document?

a) Random access memory (RAM)
b) Read-only memory (ROM)
c) Compact disc (CD)
d) Floppy disk

Q15 You see your friend playing a game on his computer. You want to play the same game on your computer, so you borrow the game CD from him. However, the game runs slowly on your computer. Which of the following components will you change to increase the speed of your computer?

a) Random access memory (RAM)
b) Monitor
c) Keyboard
d) Universal serial bus (USB) port

Q16 Enrique reads an advertisement about a computer hardware store. He wants to know the meaning of the term hardware. How will you define the term hardware for Enrique?

a) Physical parts of a computer
b) An item of information
c) Instructions that make programs work
d) Rules designed to enable computers to connect with one another

Q17 _____ Is a computer program

a) Set of Bit

b) Set of instructions
c) Set of data
d) None of the above

Q18 What does the right mouse button most commonly do?

a) Open Items
b) Perform Tasks
c) Display a menu
d) None of the above

Q19 Which of the following holds data temporarily until the CPU needs it?

a) RAM
b) Control Unit
c) Processor
d) All of the above

Q20 In order to play and hear sound on a computer, one needs

a) All of them required
b) A microphone
c) A sound card and speakers
d) None of these

Q21 Which one of the following is not an example of computer hardware?

a) Monitor
b) Mouse
c) Printer
d) Excel

Q22 The most common input device is the _____

a) Light pen
b) Keyboard
c) Monitor
d) Mouse

Q23 The _____manual tells you how to use a software program.

a) User
b) Technical
c) Programming
d) Documentation

Q24 Which of the following is NOT associated with Computers?

a) Screen
b) Mouse
c) Bit
d) Pencil

Q25 Ctrl, shift and alt are called _____ keys.

a) Adjustment
b) Alphanumeric
c) Function
d) Modifier

SS 3: ADVANCED CLASS

Q1 Samira prepares for her computer exam. She does not understand the concept of an operating system. She calls you for help. How will you define "operating system" for Samira?

a) An electronic device that is connected to your computer
b) A storage device in your computer
c) A program that controls and manages the computer
d) A circuit board that connects the input, output, and processing devices

Q2 You notice that your friend is using a calculator on his computer. In which of the following categories does the calculator belong?

a) Computer
b) Hardware
c) Operating system
d) Data

Q3 You open Microsoft Windows Media Player on your computer to play some music. Windows Media Player prompts you to provide a music file as input. How will you categorize this music file?

a) Operating system
b) Hardware
c) Data
d) Application

Q4 You list the birthdays of your friends in Microsoft Notepad. What type of data do you enter to make this list?

a) Audio
b) Video
c) Graphic
d) Text

Q5 An operating system is the most important system _____ on the computer.

a) Hardware
b) Software
c) Peripheral device
d) Application

Q6 What happens when you select the "Minimize" button at the top of an application window?

a) The window closes

b) The window hides until restored
c) The window goes full screen
d) The window moves to the side of the screen

Q7 Which one is an operating system?

a) Notepad
b) Microsoft Word
c) Microsoft Windows
d) Paint

Q8 Which one is a function of an application?

a) Managing computer hardware
b) Managing computer software
c) Allowing human control of the computer
d) Doing quick calculations

Q9 These devices can be connected to a computer through Bluetooth technology except:

a) Speakers
b) Mouse
c) Hard drive
d) Headphones

Q10 What is the smallest unit of memory?

a) Byte
b) Bit
c) Kilobyte
d) Megabyte

Q11 Adventure Works is an advertising company that uses hundreds of high-quality photographs every week. The company stores all these photographs on a computer. What memory size will you choose for the hard disk of the computer that stores all these photographs?

a) 100 Kilobytes
b) 100 Megabytes
c) 100 Gigabytes
d) 100 Bits

Q12 Many computer devices use a form of volatile memory that cannot hold data after the device is turned off. Which of the following options is an example of volatile memory?

a) Flash memory
b) Hard disk
c) Compact disc read-only memory (CD-ROM)
d) Random access memory (RAM)

Q13 Your friend sends you a computer game. After installing the game on your computer, you realize that it plays very slowly. You know that the CPU speed and hard disk for your computer are the same as they are in your friend's computer. What could be the reason for this slow performance?

a) Your computer has less random-access memory (RAM).
b) You have a slow Internet connection.
c) Your friend has an advanced keyboard.
d) Your friend has an advanced mouse.

Q14 You open five programs at the same time on your computer. After opening the programs, you realize that the speed of the computer is considerably slower. What is the reason for the slowness of your computer?

a) Non-functional keyboard
b) Non-functional mouse
c) Insufficient random-access memory (RAM)
d) Low monitor speed

Q15 Your friend wants to view your live image while you chat with her online. Which of the following devices installed on your computer will help her do this?

a) Web cam
b) Printer
c) Scanner
d) Microphone

Q16 John works as a sales representative with Northwind Traders. He has to make a presentation to his customers in another town. The presentation occupies 10 gigabytes (GB) on his computer. He wants to make some final changes to this presentation while he is traveling. Which of the following types of computer will help John carry this data with him?

a) Mainframe
b) Personal digital assistant (PDA)
c) Laptop
d) Desktop computer

Q17 Minimum software requirements usually include enough hard disk space, enough RAM and what?

a) Spreadsheet
b) Processor speed
c) CD or DVD player
d) None of the above

Q18 Which of the following options can be called data?

a) Text
b) Numbers
c) Images

d) All of the above

Q19 _____is a group of instructions that directs a computer?

a) Logic
b) Data
c) Program
d) Information

Q20 The system unit of a personal computer typically contains all of the following except____

a) Monitor
b) RAM
c) Modem
d) Microprocessor

Q21 What is usually used for displaying information at public places?

a) Monitor
b) Touch screen Kiosks
c) Computer screen
d) Overhead Projector

Q22 A permanent memory, which holds data and instruction for start up the computer and does not erased data after power off is_____

a) Network interface card
b) ROM
c) RAM
d) CPU

Q23 Which of the following is the fastest type of computer?

a) Workstation
b) Supercomputer
c) Notebook
d) Laptop

Q24 _____is a high-speed memory that is much faster than the main memory?

a) Internal
b) External
c) Cache
d) Primary

Q25 The main memory holds data and program_____

a) Temporarily
b) Permanently
c) Only once

d) None

- **Navigating the Internet and the World Wide Web (search engines, web browsing, evaluating information on the internet)**

SS 1: BASIC CLASS

Q1 Your friend publishes some photographs on his Web site. You want to view these photographs. After connecting your computer to the Internet, which of the following programs will you start to access your friend's Web site and view the photographs?

a) Web browser
b) Word processor
c) Email client
d) Antivirus

Q2 Cristianawants to know what an email is and what she will need to be able to exchange e-mail messages with her friends. What will you tell Cristiana?

a. Computer and internet access
b. Printer and photocopier
c. Plug-in and printer
d. Search engine and Information

Q3 Your brother wants to know about email. He asks you to explain simply the use of sending email messages. Which of the following options is a benefit of email that you will mention?

a) Exchange text and pictures with people.
b) Send cash to people.
c) Send couriers to people.
d) Scan pictures.

Q4 You must have an Internet Service Provider (ISP) to connect to the Internet

a) True
b) False
c) Not True
d) None of the above

Q5 Every Website on the Internet has a unique IP address.

a) True
b) False

Q6 What's a web browser?

a) A kind of spider
b) A computer that stores www files
c) A person who likes to look at websites
d) A software program that allows you to access sites on the world wide web

Q7 Which of the following is considered the latest browser?

a) Mosaic
b) Google Chrome
c) IE
d) Mozilla Firefox

Q8 Which of the following is a Web Browser?

a) MS-OFFICE
b) Notepad
c) Firefox
d) Word 2007

Q9 The advantages of E-commerce are_____

a) Stores are open all the time
b) No need to stand in queues or being placed for hold on forever
c) Lots of choice
d) All of these

Q10 _____.It is used to search/find information on the web.

a) Email
b) Webpage
c) Search engine
d) None of these

Q11 When we enter the chat, we enter the imaginary room known as

a) chat room
b) study room
c) guest room
d) None of these

Q12 _____ is used to address a person on the chat

a) Surname

b) pet name
c) nickname
d) real name

Q13 Which protocol use to transmit information on the World Wide Web

a) HTPP
b) HPPT
c) HTTTP
d) HTTP

Q14 WWW stands for_____

a) World Wide Web
b) Web World Web
c) World Wide Weblink
d) Wide World Web

Q15 Your brother wants to create an online journal to document a special event so that all of your friends can view the pictures and illustrations. Which of the following online communities will help him create this online journal?

a) Blog
b) Chat group
c) Newsgroup
d) Bulletin board

Q16 You want to chat with your friends over the Internet. Which program must you install to do this?

a) Microsoft Windows Messenger
b) Microsoft Paint
c) Microsoft Office Word 2013
d) Microsoft Office Excel 2013

Q17 The place where emails are stored is referred to as_____

a) The inbox.
b) The ISP's mail server.
c) The mail box.
d) The internet post office.

Q18 Which of the following is true about web browsers?

a) Software tool used to view web pages.
b) Software tool used to create and edit web pages.
c) Software tool used to examine the accuracy of web pages.

d) Software tool used to provide security for web pages.

Q19 What short name is associated with the World Wide Web?

a) Internet
b) Web
c) Network
d) Google

Q20 What is the specific medium through which you have access to the WWW?

a) Service provider
b) Internet
c) Mobile phone
d) Data access

Q21 When you visit the World Wide Web, what is the name of the page that opens?

a) Web page
b) Landing page
c) Layout page
d) Data page

Q22 What is a group of pages with a common theme and domain name?

a) Internet
b) Website
c) Web
d) Web browser

Q23 What does URL mean as developed by the creator of the WWW?

a) Uninterrupted Real Layout
b) Uniform Resource Locator
c) Unidentified Research Load
d) Uninterrupted Realm Largesse

Q24 What does HTTPS stand for?

a) Hyperlink Text Transfer Platform Security
b) Hypertext Transfer Protocol Secured
c) Hyperlink Text Transfer Process School
d) Hypertext Text Protocol Server

Q25 A piece of icon or image on web page associated with another web page is called___

a) URL
b) Hyperlink
c) Linking
d) Plugin

SS 2: INTERMEDIATE CLASS

Q1 You want to know more about active volcanoes in the world. You connect your computer to the Internet to find information based on the keyword "active volcanoes." Which of the following features of the World Wide Web (WWW) will you use?

a) Search engine
b) Plug-in
c) Uniform Resource Locator (URL)
d) E-mail

Q2 You want to create an online journal that describes a music concert you attended last week. You want your friends to read the journal and view the pictures of the concert. Which of the following online communities will you use to create this online journal?

a. Blog
b. Chat group
c. Newsgroup
d. Forum

Q3 Your friend is in another part of the world, and you want to have a real-time conversation with him. Which of the following options will help you do this?

a) Presentation program
b) Courier service
c) Postal service
d) Instant messaging

Q4 Sam is traveling and wants to keep in touch with you over the Internet. He wants to interact with you in real time. Which of the following programs will let the two of you communicate in real time?

a) Presentation program
b) Chat program
c) Word-processing program
d) Spreadsheet program

Q5 Web browsers read the information sent from a website.

a) True
b) False

Q6 A _____ is a document commonly written and is accessible through the internet or other network using a browser?

a) Accounts
b) Data
c) Web page
d) Search engine

Q7 Which of the following is the oldest web browser still in general use?

a) Lynx

b) Safari
c) Internet Explorer
d) Navigator

Q8 Which of the following is the latest web browser ?

a) Safari
b) Chrome
c) Microsoft Edge
d) Lynx

Q9 The term that is used for various e-cash payment and electronic payment schemes on the Internet

a) Digital Money
b) Plastic Money
c) Paper Money
d) None of these

Q10 In _____image and sounds are then sent through the Internet where users not only hear each other but can also have face to face communication

a) Chatting
b) Video conferencing
c) Mailing
d) Morphing image

Q11 When you are not online, your status is set to_____

a) Out of coverage area
b) not connected
c) online
d) offline

Q12 The internet also simply known as_____

a) NA
b) NOT
c) NET
d) NFT

Q13 A web address is also called a _____

a) LRU
b) URL
c) LUR
d) ULR

Q14 You use your computer to chat with a friend who lives in another country. Which network lets you transfer the messages between your computer and your friend's computer?

a) Intranet
b) Internet
c) Local area Network
d) Ethernet

Q15 Your friend wants to create and publish a Web page. He tells you that he wants to learn the language that is used to create a Web page. Which language will he start with ?

a) Wireless Markup Language
b) Hypertext Transfer Language
c) Hypertext Markup Language
d) Standard General Language

Q16 Sabina creates a Web site for the first time. She wants to know which protocol her Web browser uses to display Web pages. Which of the following protocols does her Web browser use?

a) File Transfer Protocol (FTP)
b) Hypertext Transfer Protocol (HTTP)
c) Simple Mail Transfer Protocol (SMTP)
d) Internet Protocol (IP)

Q17 You are explaining the concept of e-mail to your friend. Which of the following options will you use as an analogy?

a) Postal mail
b) Telephone directory
c) Fax machine
d) Note Taking

Q18 You need to send an email over the Internet to your friend Paula. What information do you need to send a message to Paula?

a) Telephone
b) E-mail address
c) Home address
d) Company address

Q19 You want to send your photographs to a friend. What should you do to make sure that your friend's email inbox does not get filled?

a) Compress Attachment
b) Format Message
c) Use Rich Format
d) Use Default Formatting

Q20 Another name for ISP is_____

a) Internet access provider

b) Digital subscribers
c) Telephone companies
d) Digital network

Q21 What is meant by "information as a commodity"?

a) People are willing to pay for the information needed
b) Information is now a factor of production
c) Information is being produced
d) Information can easily be accessed

Q22 Which email feature notify a sender that the mail sent was not delivered?

a) Forward feature
b) Demon feature
c) Bounce feature
d) IP returned mail

Q23 Which protocol guarantees delivery of an email message sent over the Internet?

a) TCP
b) IP
c) SMTP
d) POP

Q24 Internet norms and practices are referred to as

a) Net etiquette
b) Netiquette
c) Internet culture
d) Rules

Q25 What is the best classification to give the WWW?

a) Laid site
b) Programmed pages
c) Readable documents
d) Information space

SS 3: ADVANCED CLASS

Q1 Chris wants to send an e-mail message to his friends. He has a modem connected to his desktop computer. What else does Chris need to send the e-mail message?

a) Personal digital assistant (PDA)
b) Internet connection
c) Web cam
d) Printer

Q2 Susan helps her son prepare for a computer exam. While describing the World Wide Web (WWW), she explains that he can access a Web site by using a unique alphanumeric address. To which of the following terms is Susan referring?

a) URL
b) Web browser
c) ISP
d) WWW

Q3 You are communicating with your friend by using instant messaging. Both computers have a microphone and a Webcam. Which of the following options are possible?

a) Print documents
b) View your friend during the communication
c) Send a fax
d) Scan images

Q4 You can use the Internet to which of the following?

a) Transfer money to pay a bill
b) Video Chat with a friend in a different country
c) Listen to a new music album
d) All of the above

Q5 You can listen to music or watch videos saved on your computer but not from the Internet.

a) True
b) False

Q6 Which of the following is used to read HTML code and to render Webpage?

a) Web Server
b) Web Browser
c) Web Matrix
d) Weboni

Q7 What is the name of the browser developed and released by Google?

a) Chrome
b) Googly Google
c) Heetson
d) Titanium

Q8 Which of the following browsers has high speed browsing capacity?

a) Chrome
b) Opera
c) UC browser
d) Lynx

Q9 E-commerce includes

a) Online business to business or consumer transactions
b) Online merchandising
c) Digital delivery of products and services
d) All of these

Q10 Online chat is any form of real time communication over the _____ between two or more computer users

a) Garden
b) road
c) Internet
d) None of these

Q11 It actually means of having live text-based conversations with other people connected to the internet.

a) Talking
b) Murmuring
c) Texting
d) Chatting

Q12 Which of the following is an example of connectivity?

a) Floppy Disk
b) Data
c) Internet
d) Power card

Q13 Which of the following is used to write web pages?

a) URL
b) FTP
c) HTTP
d) HTML

Q14 You visit your friend's house and find her searching for books on the Internet. Which of the following describes the status of your friend's computer?

a) Online
b) Offline
c) Sleep Mode
d) Logged off

Q15 At home, your grandfather watches you working on your computer. He recently heard about the Internet and wants to know what it is. How will you define the Internet to him?

a) A program installed on a computer
b) An Electronic device for printing documents
c) A worldwide collection of computer networks

d) A power backup source

Q16 You own a small bookstore. Because of the popularity of the Internet, you decide to provide online services for your customers. Where will you go to get an Internet connection for your computer?

a) Software development company
b) Hardware Company
c) Internet cafe
d) Internet Service Provider (ISP)

Q17 You purchase a computer so that you can work from home. You request an Internet connection from an Internet service provider. Which of the following physical devices will the ISP use to connect your computer to the Internet?

a) Cables
b) Speakers
c) Scanners
d) Universal Serial Bus (USB)

Q18 Your neighbor has moved to another country. He informs you about his new job. You want to congratulate him by sending an e-mail message. Which of the following devices must you use to connect your computer to the Internet?

a) Harambe
b) Scanner
c) Modem
d) Sound card

Q19 You have a computer at home. The computer is connected to the Internet through a dial up connection. Every time you connect to the Internet, you send a request to the Internet service provider. Which device establishes this connection?

a) sound card
b) Modem
c) Microphone
d) Speaker

Q20 You want to use the Internet to view a list of the latest movies. Which of the following must you use to access the Internet?

a) Microsoft Notepad
b) Microsoft Paint
c) Web browser
d) Address book

Q21 Your brother sends you an e-mail message that includes various URLs. Which one of the following is a valid URL?

a) http://www.margiestravel.com

b) www\\margiestravel.com
c) http://com.margiestravel.www
d) http\\:www.margiestravel.com

Q22 You open the home page for www.alpineskihouse.com. On the home page, you see a link for the weather report. You want to view the weather report in a separate window, but you do not want the home page to close.

a) Type the keyword weather in the address bar and then click New Page.
b) Click the link for the weather report.
c) Right-click the link for the weather report and then click Open in New Window
d) Type the keyword weather in the Search box.

Q23 Salman is curious about e-mail. He asks you about the medium that is used to send an e-mail message. Which of the following options will you use to answer his question?

a) Fax machine
b) Postal service
c) Courier service
d) Internet

Q24 As you read your e-mail messages in Windows Mail, you notice that some messages require a follow-up activity. What will you do to ensure that you remember to do the follow-up activity for the messages?

a) Create a To Do list.
b) Sort messages by name.
c) Set a flag.
d) Move the e-mail messages to a new folder

Q25 You want to send an email to apply for a job in a company.

a) Attractive colors
b) Smilies
c) Fancy quotations
d) Formal Salutation

- **Multimedia services (deducing information from multimedia)**

SS 1: BASIC CLASS

Q1 A multimedia file

a) is same as any other regular file
b) Must be accessed at specific rate
c) stored on remote server cannot be delivered to its client
d) None of the mentioned

Q2 Which one of the following resource is not necessarily required on a file server?

a) Secondary storage
b) Processor
c) Network
d) Monitor

Q3 Which of the following audio file formats is commonly not compressed.

a) WAV
b) MP3
c) WMA
d) MP4

Q4 MP3 files are commonly used to stream music on the internet.

a) True
b) False

Q5 Which of the following allows you to stream TV shows or movies on the Internet?

a) Online entertainment services
b) DVDs

c) Digital Copies
d) YouTube

Q6 You must always have an Internet connection to watch TV or movies on your computer or smart device.

a) True
b) False

Q7 Watching TV shows and movies is limited to a desktop or laptop computer.

a) True
b) False

Q8 MPEG stand for

a) Moving Picture Experts Group
b) Moving Point Exchange Group
c) Mobile Portable Exchange Group
d) Motor Printer Experience Group

Q9 Data communications are transfer of data through some

a) transmission medium.
b) linear medium.
c) network lan.
d) protocols.

Q10 Which of the following is a component of multimedia?

a) Text
b) Images
c) Audio
d) All of these

Q11 JPEG may be expanded as

a) Joint photographic Exports Group
b) Joint Physical Experts Group
c) Joint Physical Exports Group
d) Joint Photographic Experts Group

Q12 _____ is an application that allows you to send and receive messages over cell phones.

a) Animated service
b) Message service
c) MMS
d) Multimedia

Q13 MMS stands for_____

a) Multiple Mail System

b) Multimedia Messaging System
c) Multimedia Mail System
d) Multiple Messaging System

Q14 Multimedia enhances the entire ___ for the users.

a. Engagement
b. Experience
c. Excitement
d. Entertainment

Q15 We can reduce the size of the video files by _____them.

a) compressing
b) converting
c) zipping
d) morphing

Q16 Computer Based Tutorials are _____ learning aids.

a) Self learning
b) Self tutor
c) Self paced
d) Self taught

Q17 _____ and _____ are the input devices used in creating the simulation.

a) Keyboard, Mouse
b) Joysticks, Sensors
c) Keyboard, Sensors
d) Mouse, Joystick

Q18 What is Plug-ins?

a) accessory downloads to improve the functionality
b) audio cable
c) vg connector
d) none of the above

Q19 What is Microphone

a) converts sound to an electric signal
b) smallest phone
c) smart phone
d) none of the above

Q20 HD format stand for?

a) high definition
b) high density
c) High-Tech digital
d) none of the above

Q21 What is Interactive media?

a) responds to users action
b) linear media
c) print media
d) none of the above

Q22 What is Image compression?

a) reduce the image data
b) reduce height and width
c) reduce physical size
d) none of the above

b)

Q23 DPI stands for?

a) resolution measurement
b) resolution physical size
c) resolution for
d) none of the above

Q24 A quality of Digital Image is measured by

a) physical size
b) height and width
c) dpi
d) none of the above

Q25 You can stream digital audio files to listen to audio without having to download a large audio file.

a) False
b) True
c) Not False
d) None of the above

SS 2: INTERMEDIATE CLASS

Q1 In which type of streaming multimedia file is delivered to the client, but not shared?

a) real-time streaming
b) progressive download
c) compression
d) none of the mentioned

Q2 Why are digital video records and camcorders smaller than older video cameras?

a) Technology always makes things smaller
b) Digital video doesn't require tape
c) Digital video camcorders aren't smaller

d) None of the above

Q3 What option do newer movies on DVD now come with so that you can watch a movie on a smart device?

a) DVD
b) Online
c) Digital Download
d) None of the Above

Q4 What does AVI stand for?

a) Audio for Voice on the Internet
b) Audio Voice Interleaved
c) Audio Video Interleaved
d) Adapted Video for Internet

Q5 Example of an analogue-to-analogue conversion is

a) radio.
b) video.
c) television.
d) internet.

Q6 The application that allows to send and receive messages over cell phone is

a) Microwave Messaging Service
b) Multimedia Messaging Service
c) Multimedia Media Service
d) Microwave Media Service

Q7 MIDI stand for?

a) musical instrument digital interface
b) a costume
c) brand name of recording equipment
d) none of the above

Q8 Digital technology has integrated what we listen to, watch, and how we communicate.

a) True
b) False

Q9 _____has a dark box with a lens that focuses light to create an image.

a) Digital video
b) Digital camera
c) Audio file
d) None of the above

Q10 You can transfer pictures taken with a digital camera to a computer. You can use any of the following to transfer pictures.

a) Bluetooth
b) USB cable
c) Printer Cable
d) Hard drive

Q11 Which of the following is NOT a common feature of image or photo editing?

a) Red-eye removal
b) Sound effects
c) Contrast
d) Crop

Q12 High quality _____ is another option for near photographic quality prints.

a) High speed internet
b) Smart printer technology
c) High-definition printing
d) Photo printing paper

Q13 Computers can be used as

a) Communication Device
b) TVs
c) Entertainment device
d) None of the above

Q14 Which of the following allows you to stream TV shows or movies on the Internet?

a) Online entertainment services
b) DVDs
c) Digital Copies
d) All of the above

Q15 Radio is categorized as a _____ media

a) mass media
b) visual media
c) print media
d) none of the above

Q16 Which of the following is not a video file extension

a) MP4
b) AVI
c) QT
d) JPEG

Q17 Cyberspace

a) virtual world of computer networks
b) space for design
c) space research
d) none of the above

Q18 E-Commerce

a) commerce learning through internet
b) business conducted over the internet
c) engineering commerce
d) none of the above

Q19 Video streaming

a) real time video on internet
b) non-linear video editing
c) linear video editing
d) ab roll editing

Q20 Online communities

a) group of people communicates through internet
b) community radio
c) online communication of different communities
d) none of the above

Q21 Webcasting

a) media presentation distributed over the internet
b) web design
c) web creation
d) none of the above

Q22 Pixels stand for _____

a) digital image
b) analogue
c) vector
d) none of the above

Q23 Image Enhancing Software

a) photoshop
b) page maker
c) ms excel
d) power point

Q24 _____ Is not an image Format

a) bitmap
b) gif

c) pixel
d) jpeg

Q25 cyber media is

a) vast quantities of information stored in network
b) name of an organization
c) traditional media
d) none of the above

SS 3: ADVANCED CLASS

Q1 Which one of the following is the characteristic of a multimedia system?

a) high storage
b) high data rates
c) both A and B
d) none of the mentioned

Q2 Speaking to your computer to write a document is an example of what?

a) Audio digital technology
b) Speech recognition
c) Speech synthesis
d) Audio file

Q3 Which of the following file extensions would be used for a Quick Time movie?

a) Avi
b) Mpg
c) Mov
d) sgi

Q4 VRML stands for which of the following?

a) Very Real Marking Language
b) Virtual Reality Marking Language
c) Virtual Reality Markup Language
d) Virtual Reality Makeup Language

Q5 Virtual Reality is useful in training pilots in flight

a) Imitation
b) Model
c) Simulators
d) Simulation

Q6 Multimedia has an _____ impact on education.

a) E-learning

b) Extensive
c) Effective
d) Enormous

Q7 and animations are frequently used to make computer games thrilling and realistic.

a) Images
b) Special effects
c) Graphics
d) High-end graphics

Q8 Multimedia ___ are being used in a variety of different fields.

a) Graphics
b) Applications
c) Programs
d) Visuals

Q9 What option do newer movies on DVD now come with so that you can watch a movie on a smart device?

a) DVD
b) Online
c) Digital Download
d) None of the Above

Q10 DAB stand for

a) digital audio broadcasting
b) digital audio book
c) decibel
d) none of the above

Q11 In digital audio, ---------- describes the number of bits of Information recorded for each sample.

a) Signal power
b) Bit depth
c) Ambience
d) Acoustics

Q12 _____is a process of converting analogue audio into digital audio

a) sampling
b) recording
c) stretching
d) digitizing

Q13 Multimedia represents the convergence of text, sound, video and____into a single form.

a) news
b) pictures
c) songs
d) all of the above

Q14 Bit depth is_____

a) Number of bits of information in each sample
b) Depth of sound
c) Volume controller
d) Audio Equipment

Q15 Hyper media is_____-

a) various data linked together by a hypertext program.
b) media hype
c) print media
d) none of the above

Q16 E-Journalism is_____

a) traditional journalism
b) reporting electronic news
c) reporting through internet
d) none of the above

Q17 Web portals

a) search engine, email, links to other related sites, personalized content.
b) static web pages
c) a company website
d) none of the above

Q18 User interface design

a) graphical representation for user
b) . tutorial for user
c) . introduction for user
d) none of the above

Q19 The Colour model used for print media

a) CMYK
b) HSB
c) RGB
d) BMP

Q20 Which one of the following is a web production tool?

a) page maker
b) . ms power point

c) . dream weaver
d) . ms word

Q21 A media presentation over Internet is referred to as

a) webcasting
b) video conference
c) live television broadcast
d) offline presentation

Q22 Which of the following is traditional media?

a) print media
b) electronic media
c) online media
d) web media

Q23 _____is the measure of the degree of sharpness of an image

a) resolution
b) pixel
c) accuracy
d) depth

Q24 Content Analysis in multimedia is _____

a) a systematic analysis written work, speech, or film
b) numerical analysis
c) quantitative analysis
d) none of the above

Q25 The most common form of outdoor advertising is

a) stadium advertising
b) advertising on taxis
c) advertising on bus backs
d) billboard advertising

- **Productivity programs (productivity tools, e.g. spreadsheets, word processors, presentations softwares and graphics programs)**

SS 1: BASIC CLASS

Q1 Markus creates a document by using Microsoft Office Word 2003 and saves it with the name Office.doc. Which of the following components of Word 2003 will display the document name?

a) Menu bar
b) Toolbar
c) Title bar
d) Status bar

Q2 Cornelia uses Microsoft Office Excel 2003 to create a worksheet that contains the estimated costs of her business project. She wants to update certain costs. Which component of Excel 2003 will display the changes in the worksheet?

a) Title bar
b) Work area
c) Scroll bar

a) Slide Design
b) Slide Transition
c) Slide Show
d) Slide Layout

Q19 Pia creates a presentation by using PowerPoint. The slides in the presentation must contain a title, a bulleted list, and a diagram. Which of the following menu options will she select to do this?

a) Chart Wizard
b) Slide Transition
c) Background
d) Slide Layout

Q20 You create a presentation by using PowerPoint. Which of the following toolbars will you use to add geometric shapes to the presentation?

a) Drawing
b) Formatting
c) Reviewing
d) Standard

Q21 Laura opens a presentation that she creates by using PowerPoint 2003. She wants to manually set timings for a slide show. Therefore, she wants to view the slides in the presentation as thumbnails. Which of the following views will Laura choose?

a) Outline
b) Slide Sorter
c) Normal
d) Slide Show

Q22 Stella uses PowerPoint to create a presentation about the performance of her class. In the presentation, she wants to show a comparison between the assessment scores of her class in the current year and the previous year. Which of the following objects will Stella add to the presentation to display the comparison?

a) AutoShape
b) Video clips
c) Clip Art
d) Chart

Q23 You use PowerPoint 2003 to prepare a presentation about the quarterly performance of your organization across various regions. You represent this graphically by adding a Line chart in your presentation. However, you want to change the Line chart to a Column chart. To do this, you double-click the chart to display the Chart menu. Which of the following Chart menu commands will you use to change the Line chart to a Column chart?

a) Chart Type
b) Chart Options
c) AutoFormat
d) AutoCorrect

Q24 Larry prepares a presentation by using PowerPoint 2003. He needs to print the presentation to keep the key points handy. He wants an overview of the text in the slides, and he does not want to print the graphics. Which of the following formats will Larry select in the Print box to print the presentation?

a) Notes Pages
b) Slides
c) Handouts
d) Outline View

Q25 Paula manages the recruitments for A. Datum Corporation. The company hires 500 employees. Paula needs to store on her computer the personal details, compensation structure, and insurance details for each employee. Which of the following programs will Paula use?

a) Microsoft Notepad
b) Photo editing program
c) Presentation program
d) Database program

SS 3: ADVANCED CLASS

Q1 Your parents need to plan the budget for next month. To do this, they record the daily expenses of the current month and then calculate the total expenses for various categories, such as groceries, medical expenses, and clothes. Which of the following programs will they use to maintain the expense records and calculate the total of each category?

a) Publishing program
b) Spreadsheet program
c) Database program
d) Presentation program

Q2 You visit Access Bank to ask about your account balance. The teller gives you details within a short span of time. Which of the following programs does the bank use?

a) Publishing program
b) Graphics program
c) Database program
d) Presentation program

Q3 Your friend sends you a photograph of his son. You want to enlarge the photograph. Which program type will you use to make this modification?

a) Presentation program
b) Graphics program
c) Word-processing program
d) Spreadsheet program

Q4 Your colleague wants to quit her job. She wants to type her resignation letter. What kind of program will she use to do this?

a) Presentation program
b) Graphics program
c) Word-processing program
d) Spreadsheet program

Q5 Carol uses Microsoft Office Word 2007 to create documents and store data in them. She often uses a block of on-screen buttons, displayed in the following exhibit, to perform common tasks. What is the term used to describe the block of on-screen buttons displayed in the following exhibit?

a) Ribbon
b) Quick Access Toolbar
c) Microsoft Office button
d) Groups

Q6 You need to print a few documents that you create by using Office Word 2007. After printing the documents, you then save the documents on your office computer. Which of the following tabs will you use to print the documents?

a) Home
b) Page Layout
c) View
d) Insert

Q7 Eric teaches his daughter Tina how to work with productivity programs. Tina notices a small blinking bar that stays in place until Eric clicks the mouse in a new location in the document. Tina wants to know the name of this blinking bar. Which of the following terms will Eric use to answer Tina's question?

a) Mouse pointer
b) Insertion point
c) Scroll bar
d) Status bar

Q8 Ursula creates a document in which she needs to insert some uppercase letters. She prefers not to use the CAPS LOCK key, and she needs to complete the document quickly. Which of the following keyboard keys can Ursula use in combination with the letters she wants to type in uppercase?

a) ESC
b) CTRL
c) ALT
d) SHIFT

Q9 You select a text in a document. Which commands in the Mini Toolbar can you use?

a) Line Spacing
b) Copy
c) Cut
d) Styles

Q10 Barry purchases a computer that has a word processor installed in it. Which of the following tasks can he perform by using a word processor? Select three.

I. Create documents
II. Edit videos
III. Host a Website
IV. Format text
V. Perform real-time communication
VI. Print pages

a) I, II & III
b) III, II & I
c) I, IV & VI
d) VI, V & VI

Q11 You use Microsoft Office Word 2007 to create a text-based document. You open three other documents to copy data from them. Which group on the Home tab will you use for this?

a) Clipboard
b) Font
c) Paragraph
d) Editing

Q12 Bob reviews a document by using Microsoft Office Word 2007. He needs to replace a word with another word of the same meaning. Which of the following features in Microsoft Office Word 2007 can he use to do this?

a) Copy and Paste
b) Thesaurus
c) AutoCorrect
d) Research

Q13 Susan uses Microsoft Office Word 2007 to create a document. She wants to place the title in the centre of the page. Which of the following features in Microsoft Office Word 2007 can Susan use to do this?

a) Alignment
b) Spacing
c) Font style
d) Font size

Q14 Michelle uses Microsoft Office Excel 2007 to create her expense sheet for the month. She wants to view the data in a graph. Which tool will she use to represent the data through a graph?

a) Chart Wizard
b) AutoContent Wizard
c) Clip Art gallery
d) Budget Template Wizard

Q15 John trains his team to work with spreadsheets. One of his team members wants to know what the point of intersection of a row and a column is known as. Which of the following options will John use to answer his team member's question?

a) Label
b) Cell
c) Value
d) Worksheet

Q16 Don is a teacher. He uses Microsoft Office Excel 2007 to store the scores of all of his students. He wants to find the total score for each student. Which of the following toolbar buttons will he use to calculate the total score?

a) AutoSum
b) AutoCount

c) AutoSummarize
d) AutoFormat

Q17 Angela plans her office budget for the next month. She wants to know what part of the total expenses she spent on office supplies last month. Using a worksheet, she wants to insert a chart showing the part spent on office supplies. Which of the following charts will she use?

a) Line
b) Pie
c) Surface
d) Area

Q18 You want to use Microsoft Office PowerPoint 2007 to create a presentation on your computer. You need to add some geometric shapes to the presentation. Which of the following tabs will you use to do this?

a) Home
b) Design
c) Animations
d) View

Q19 Your friend needs to create a presentation about a product launch by his company. He wants to know the features available in presentation programs. Which of the following features will you list for him?

a) Create handouts
b) Edit video
c) Perform calculations
d) Enable real-time communication

Q20 Mark creates a business presentation by using Microsoft Office PowerPoint 2007. In this presentation, he needs to show a comparison between the productivity of his company in the current year and the previous year. Which of the following objects will he add to the presentation to show the comparison?

a) AutoShape
b) Audio clip
c) Clip Art
d) Chart

Q21 Thomas creates a presentation on his computer by using Microsoft Office PowerPoint 2007. He wants to add display effects on various slides of the presentation. Which of the following options in Microsoft Office PowerPoint 2007 can he use to add the display effects?

a) Slide Design
b) Slide Transition
c) Slide Show
d) Slide Layout

Q22 Alan works as an administrator in a school. He wants the registration numbers of the students to be unique in the student database table. He adds a field named Registration Number in the student database table. Which of the following actions will Alan perform on the Registration Number field in the database table to ensure that each student receives a unique registration number?

a) Define the field as a primary key
b) Specify the data type as text
c) Set a Validation Rule for the field
d) Create an Input Mask for the field

Q23 Raman works as an administrator with The Phone Company. He wants to use Microsoft Office Access 2007 to maintain customer records on his computer. Which of the following objects can he create in Microsoft Office Access 2007? Select three.

I. Animations
II. Forms
III. Tables
IV. Video clips
V. Reports
VI. Pictures

a) I, II & III
b) II, III & V
c) II, III & IV
d) II. VI & V

Q24 Patricia is a travel agent. She enters a customer name, address, and phone number in the customer database. She wants to know which object is used to organize and store this data in Microsoft Office Access 2007. Which of the following objects will you select to answer her query?

a) Query
b) Table
c) Form
d) Report

Q25 You open a table in Access in the Datasheet view. You want to filter the data in the table. Which of the following menus will you use to select the filter command?

a) Tools
b) Record
c) Format
d) Insert

Computer Security and Privacy (Firewalls and anti-virus softwares)

SS 1: BASIC CLASS

Q1 Joe uses Microsoft Windows XP on his office computer. He wants to control the access rights to his computer. Therefore, he specifies a user name and password to log on to the computer. Which of the following processes does the operating system perform to confirm his logon information?

a) Computation
b) Initialization
c) Authentication
d) Authorization

Q2 What is computer privacy?

a) Keeping your personal files and data secure and a secret.
b) Keeping data open to everyone
c) Disclose of data and information
d) None of the above

Q3 Where is a component that a power surge can destroy?

a) Screen
b) Keyboard
c) Motherboard
d) None

Q4 _____ involves creating multiple copies of your data in a separate location

a) Downloading
b) Uploading
c) Back up
d) Record

Q5 What additional measures can be taken to protect your computer from physical damage?

I. Installing an air conditioner
II. Housing the computer in fire retardant surroundings
III. Turning off the computer during a storm
IV. Putting the computer outside

a) Both I and II
b) Both II and III
c) Both III and IV
d) I, II, and III

Q6 What is a hacker?

a) A person that tries to illegally access your computer
b) A weapon that can damage your computer
c) A program to protect your program
d) None

Q7 How often should you back up data?

a) Once in a while
b) After the computer is stolen or malfunctions
c) On a regular schedule
d) None

Q8 A firewall is an effective way to protect against threats.

a) True
b) False

Q9 Restricting access to your computer can keep data safe from others.

a) True
b) False

Q10 You should keep your password a secret.

a) True
b) False

Q11 _____ is a common activity used to extract personal information from computer users and use the information for malicious purposes.

a) Fishing
b) Phishing
c) Cracking
d) All of the above

Q12 An Instant Message can have attachments that are meant for malicious purposes.

a) True
b) False

Q13 Spam emails can be stopped with which of the following:

a) Antivirus software
b) Privacy settings
c) Email filters
d) None

Q14 Trojan viruses can be stopped with which of the following:

a) Antivirus software
b) Privacy settings
c) Email filters
d) None

Q15 Online Predators target _____

a) Children
b) Elderly
c) All of the above
d) None of the above

Q16 The biggest security risks to your computer is _____

a) Speed
b) Friends
c) None
d) Physical Damage

Q17 The protection of a computer system and its data from accidental or intentional loss and tampering is _____

a) Computer Virus
b) Computer Ethics
c) Computer Security
d) None

Q18 A small file on a computer that is created when a user visits a Web site is called _____

a) Threat
b) Cookies
c) Program
d) Virus

Q19 _____ is the process of reconverting the encrypted data into a readable and usable form.

a) Encryption
b) Readable
c) Decryption
d) Execution

Q20 _____ is the process of converting data into an unreadable and unusable form and it is done to prevent unauthorized access of data, especially during data transmission over the Internet.

a) Encryption
b) Readable
c) Decryption
d) Execution

Q21 A _____ blocks unreliable and unauthorized information from the Internet before it
reaches your computer or a private network

a) Antivirus
b) Filter
c) Firewall
d) MAC

Q22 _____ is a unique string of characters that a user types in as an identification code. It is a security measure used to restrict access to computer systems and sensitive files

a) Loging
b) Password

c) Hacker
d) None

Q23 An irrelevant and unsolicited e-mail message sent by an unknown sender reside in ____

a) Inbox
b) Sent Mail
c) Spam
d) Outbox

Q24 SSL stand for _____

a) Socket Secured Location
b) Secure Socket Layer
c) Secure Stand Location
d) Socket Secured Layer

Q25 Keith notices that his neighbour is posting false statements about him on the message board of a Web site. Which of the following activities is Keith's neighbour performing?

a) Plagiarism
b) Defamation
c) Gambling
d) Phishing

SS 2: INTERMEDIATE CLASS

Q1 Firewalls are to protect against _____

a) Virus Attacks
b) Fire Attacks
c) Data Driven Attacks
d) Unauthorized Attacks

Q2 A hard copy would be prepared on a _____

a) Printer
b) Joystick
c) Trackball
d) All of these

Q3 The security of a system can be improved by _____

a) Audit log
b) Threat monitoring
c) Both (a) and (b)
d) None of these

Q4 Which one of the following is a key function of a firewall?

a) Copying
b) Moving
c) Deleting

d) Monitoring

Q5 Unauthorized copying of software to be used for personal gain of personal backups is called

a) Program looting
b) Program thievery
c) Data snatching
d) Software piracy

Q6 Like a virus, it is a self-replicating program it also propagates through computer network

a) Phishing scam
b) Worm
c) Spyware
d) Cracker

Q7 The most common security failure is _____

a) Depending on passwords
b) Carelessness by users
c) Too much emphasis on preventing physical access
d) Insufficient technology used to prevent breaches

Q8 Trojan-Horse programs _____

a) Usually are immediately discovered
b) Really do not usually work
c) Are hacker programs that do not show up on the system
d) Are legitimate programs that allow unauthorized access

Q9 The phrase _____ describe viruses, worms, Trojan horse attack applets and attack scripts.

a) Spam
b) Phishing
c) Malware
d) Virus

Q10 Abuse messaging systems to send unsolicited is _____

a) Phishing
b) Adware
c) Firewall
d) Spam

Q11 A person who uses his or her expertise to gain access to other people's computers to get information illegally or do damage is a

a) Hacker

b) Analyst
c) Spammer
d) Programmer

Q12 Malicious access are unauthorized

a) Destruction of data
b) Modification of data
c) Reading of data
d) All of these

Q13 Encrypted passwords are used for _____

a) Security purpose
b) Passwords list secret
c) Faster execution
d) Both (a) and (b)

Q14 A firewall is _____

a) Separates a network into multiple domains
b) May need to allow http to pass
c) Limits network access between the two security domains and maintains and logs all connections
d) is a computer or router that sits between the trusted and untrusted

Q15 In which of the following, a person is constantly followed/chased by another person or group of several people?

a) Phishing
b) Bulling
c) Stalking
d) Identity theft

Q16 _____is a type of software designed to help the user's computer detect viruses and avoid them.

a) Malware
b) Adware
c) Antivirus
d) Both B and C

Q17 A program designed to destroy data on your computer which can travel to infect other computers is called a _____

a) Virus
b) Disease
c) Hurricane
d) Torpedo

Q18 _____ are often delivered to PC through an E-mail attachment and are often designed to do harm.

a) Email messages
b) Portals
c) Spam
d) Viruses

Q19 A hacker contacts your phone or e-mails and attempts to acquire your password is called _____

a) Spamming
b) Buging
c) Spoofing
d) Phishing

Q20 Hackers often gain entry to a network be pretending to be at a legitimate computer

a) IP spoofing
b) Forging
c) Spoofing
d) None of these

Q21 Passwords enable users to _____

a) get into the system quickly
b) make efficient use of time
c) retain confidentiality of files
d) simplify file structures

Q22 Which of the following is not harm to a computer resources

a) Malware
b) Virus
c) Trojan horse
d) None of the above

Q23 What is a backup?

a) Restoring the information backup
b) An exact copy of a system's information
c) The ability to get a system up and running in the event of a system crash or failure
d) All of these

Q24 A computer checks the _____ of user names and passwords for a match before granting access.

a) Website
b) Network

c) Backup file
d) Database

Q25 All of the following are examples of real security and privacy risks EXCEPT:

a) Hackers
b) Spam
c) Viruses
d) Identity theft

SS 3: ADVANCED CLASS

Q1 Security violation due to

a) Malicious
b) Accidental
c) both (a) and (b)
d) none of these

Q2 Which of the following would most likely NOT be a symptom of a virus?

a) Existing program files and icons disappear
b) The CD-ROM stops functioning
c) The Web browser opens to an unusual home page
d) Odd messages or images are displayed on the screen

Q3 All of the following are examples of real security and privacy risks EXCEPT:

a) Hackers
b) Spam
c) Viruses
d) Identity theft

Q4 _____is a computer crime in which criminal breaks into a computer system for exploring details of information etc.

a) Hacking
b) Spoofing
c) Eavesdropping
d) Phishing

Q5 _____are viruses that are triggered by the passage of time or on a certain date.

a) Boot-sector viruses
b) Macro viruses
c) Time bombs
d) Worms

Q6 Verification of a login name and password is known as:

a) Configuration
b) Accessibility
c) Authentication
d) logging in

Q7 _____is a security protocol based on digital certificates.

a) Digital signature
b) Secure sockets layer protocol
c) Secure electronic transactions
d) None of these

Q8 The ability to recover and read deleted or damaged files from a criminal's computer is an example of a law enforcement specialty called:

a) Robotics
b) Simulation
c) computer forensics
d) animation

Q9 Firewalls are used to protect against _____

a) unauthorized Attacks
b) virus Attacks
c) Data Driven Attacks
d) Fire Attacks

Q10 Junk e-mail is also called

a) Spam
b) Spoof
c) sniffer script
d) spool

Q11 Nowadays, Phishing has become a criminal practice of using social engineering over which of the following?

a) Social networking sites
b) Mobile Phones
c) E-mail
d) Cyber cafes

Q12 Technology no longer protected by copyright, available to everyone, is considered to be:

a) Proprietary
b) Open
c) Experimental
d) in the public domain

Q13 Back up of the data files will help to prevent _____

a) loss of confidentiality
b) duplication of data
c) virus infection
d) loss of data

Q14 _____ can be used to minimize the risk of security breaches or viruses.

a) Firewall
b) Backups

c) Encryption
d) Digital signature

Q15 A _____sometimes called a boot sector virus, executes when a computer boots up because it resides in the boot sector of a floppy disk or the master boot record of a hard disk

a) system virus
b) Trojan horse virus
c) file virus
d) None of these

Q16 A result of a computer virus can not lead to _____

a) Disk Crash
b) MotherBoard Crash
c) Corruption o f program
d) Deletion of files

Q17 _____ is the science that attempts to produce machines that display the same type of intelligence that humans do.

a) Nanoscience
b) Nanotechnology
c) Simulation
d) Artificial intelligence

Q18 If you receive an email from someone you don't know, what should you do?

a) Forward it to the police immediately
b) Delete it without opening it
c) Open it and respond to them saying you don't know them
d) Reply and ask them for their personal information

Q19 _____Is a specialized form of online identity theft.

a) Spoofing
b) Unauthorized disclosure
c) Eavesdropping
d) Phishing

Q20 An electronic file that uniquely identifies individuals and websites on the internet and enables secure, confidential communications.

a) Digital signature
b) Digital certificates
c) Encryption
d) Firewalls

Q21 Identify the term which denotes that only authorized users are capable of accessing the information

a) Confidentiality
b) Availability
c) Integrity

d) Non-repudiation

Q22 State whether True or False: Data encryption is primarily used to ensure confidentiality.

a) True
b) False
c) Cannot be interpreted
d) None

Q23 Which software is mainly used to help users detect viruses and avoid them?

a) Antivirus
b) Adware
c) Malware
d) None of the above

Q24 Identify the term which denotes the violation of principle if the computer is no more accessible.

a) Access control
b) Availability
c) Confidentiality
d) All of the above

Q25 Which of the following is considered an element of cyber security?

a) Network security
b) Operational security
c) Application security
d) All of the above

Networking and collaboration (LinkedIn and other online communities)

SS 1: BASIC CLASS

Q1 Social networks are organized primarily on _____

a) Brands
b) People
c) Discussions
d) interests

Q2 Social networks have an information-sharing capacity. As such, a great distribution channel for?

a) customer feedback
b) viral content
c) exclusive coupons
d) marketing messages

Q3 Which social network is considered the most popular for business-to-business marketing?

a) Facebook
b) Orkut
c) Ryze
d) LinkedIn

Q4 Facebook and Linked are popular social networks globally.

a) True
b) False
c) Maybe
d) Maybe not

Q5 when marketing with social networks is to identify the goals.

a) True
b) False
c) Maybe
d) Maybe not

Q6 What equipment do you need to do a live video chat?

a) Webcam
b) Microphone
c) Speakers
d) All of the above

Q7 best practice to interact under a personal account on LinkedIn.

a) True
b) False
c) Maybe
d) Maybe not

Q8 _____ is a Web site that enables communication instantly with other people who have logged on to the same Web site.

a) Chartroom
b) Forum
c) Online Portal
d) Online Community

Q9 Your grandfather watches you working on your computer at home. He recently heard about the Internet and wants to know what it is. How will you define the Internet to him?

a) program installed on a computer
b) An electronic device for printing documents
c) A worldwide collection of various computer networks
d) A power backup source

Q10 Nina works on medical research. She finds some useful information about the causes of a disease. Nina wants to publish her findings so that people around the world can access it and benefit from it. Which of the following options must Nina use to publish her findings on the World Wide Web?

a) Internet
b) Ethernet
c) Local area network (LAN)
d) Metropolitan area network (MAN)

Q11 You are using your computer at home to chat with your friend. Your friend lives in another country. Which network enables the transfer of messages to your friend's computer?

a) Intranet
b) Internet
c) Metropolitan area network (MAN)
d) Ethernet

Q12 Your school has 20 computers in your computer lab. All of the computers in this lab are connected by using cables. What type of a network does your computer lab have?

a) Local area network (LAN) (Correct Answer)
b) Wide area network (WAN)
c) Satellite
d) Virtual

Q13 Your uncle sets up a new office that includes 10 computers. He wants the computers and their associated devices to be linked together so that they share files and resources, such as printers and scanners. What is this arrangement of computers called?

a) Network
b) Internet
c) Server
d) Workstation

Q14 Lisa starts a small business. She wants to set up a computer network in her new office so that her employees can share documents. She needs to identify the components that are required for the network. Which of the following components does Lisa need to form the network? Select two.

a) Web cam
b) Communication channel
c) Scanner
d) CD

Q15 Morten wants to play a game online. He hears modem tones every time his computer sends a request to the Internet service provider (ISP) to establish the Internet connection. What type of Internet connection does Morten use?

a) Dial-up
b) Broadband
c) WiFi
d) Dedicated

Q16 Chris wants to send an e-mail message to his friends. He has a modem connected to his desktop computer. What else does Chris need to send the e-mail message?

a) Personal digital assistant (PDA)
b) Internet connection
c) Web cam
d) Printer

Q17 You want to send an email to two friends. You do not want the second friend to see the email-id of your first friend. Which field should you select to mark your first friend's email id?

a) Cc
b) Bcc
c) To
d) Subject

Q18 Your father needs to travel frequently to conduct business meetings in various cities. You tell him that he can use video conferencing to attend and conduct the meetings without traveling. Your father wants to know more about video conferencing. Which of the following options will you identify as features of video conferencing?

a) Requires the participants to be in the same country.
b) Allows participants to talk to each other. (Correct Answer)
c) Uses speech synthesis to transmit audio among participants.

d) Can be conducted by using a stand-alone computer.

Q19 You want to view all the shared computers on the network. Which of the following options in the Start menu will you use?

a) Computer
b) Network
c) Connect To
d) Default Programs

Q20 Arno's uncle owns a small business with 20 office employees. The computers in his office are connected on a network. Arno often helps his uncle to install new computers on the network, add and remove individuals from the list of authorized users, and archive files on a computer. He likes to perform these activities and wants to make them the focus of his profession. Which of the following job opportunities can Arno consider?

a) Graphics designer
b) Software developer
c) Network administrator
d) Database administrator

Q21 Which of the following software enables real-time or near-real-time communication?

a) Focus ware
b) Collaborative
c) Cooperative
d) IMPS

Q22 Which of the following is a good example of an SMS service organized into a social network and blog?

a) Twitter
b) Facebook
c) Instagram
d) None of the mentioned

Q23 What is a HUB?

a) Software
b) Computing device
c) Network device
d) Calculating device

Q24 What does a set of rules define?

a) SMTP
b) FTP
c) IMAP
d) Protocol

Q25 What does TCP/IP stand for?

a) Telephone control protocol / Internet Protocol
b) Transmission control protocol/Internet protocol
c) Transmission control protocol/International protocol
d) None

SS 2: INTERMEDIATE CLASS

Q1 Which of the following is used to allocate and manage resources for a network?

a) Bluetooth
b) Server
c) Node
d) None of the above

Q2 What does LAN stand for?

a) Local Array Network
b) Local Area Network
c) Local Area Net
d) None

Q3 Which type of topology is best suited for large businesses which must carefully control and coordinate the operation of distributed branch outlets?

a) Ring
b) Local area
c) Hierarchical
d) Star

Q4 A collection of hyperlinked documents on the internet forms the?

a) World Wide Web (WWW)
b) E-mail system
c) Mailing list
d) Hypertext markup language

Q5 The location of a resource on the internet is given by its?

a) Protocol
b) URL
c) E-mail address
d) ICQ

Q6 The term WAN stands for?

a) Wide Area Net
b) Wide Access Network
c) Wide Area Network

d) Wide Access Net

Q7 What sort of software would you use to look at web pages on the Internet?

a) Internet Service Provider
b) Web Browser
c) Presentation
d) Anti-virus

Q8 What would you use a search engine for?

a) To check for new emails
b) To search for files on a CD ROM
c) To connect to the Internet
d) To find web pages

Q9 Which of the following is not a way of communicating using the Internet?

a) Instant Messaging
b) Emailing
c) Chat Rooms
d) Phishing

Q10 What is the purpose of the refresh button in Internet Explorer?

a) Search for web pages
b) Remove your favourite websites
c) Display the home page
d) Reload the current page

Q11 A message can only be deemed effective when it is

a) repeated back as proof of understanding
b) communicated face-to-face
c) delivered with confidence
d) Understood by others and produces the intended results

Q12 When you share a file with others, you can share it only from:

a) File explorer
b) OneDrive
c) Word Online app
d) All of the above

Q13 You can access OneDrive by using only:

a) A desktop
b) A laptop
c) iPad
d) All of the above

Q14 When creating a new contact group in Outlook, you can add members from:

a) Outlook contacts
b) The address book
c) A new email contact
d) All the above

Q15 What allows people to meet on the Internet and send or display graphics or other files?

a) Video conferencing
b) E-mail
c) Chat
d) None

Q16 Video conferencing requires a high-speed Internet connection.

a) True
b) False

Q17 Which of the following career opportunities create newsletters, blogs and online magazines?

a) Desktop publisher
b) Transcriber
c) Technical writer
d) Network Administrator

Q18 Graphic Artists create animations for _____

a) video
b) games
c) movies
d) all of the above

Q19 Which IT professional is in charge of keeping information stored and organized?

a) Network administrator
b) Database administrator
c) Web administrator
d) Desktop Publisher

Q20 Which IT professional maintains and manage websites

a) Network administrator
b) Database administrator
c) Web administrator
d) Desktop Publisher

Q21 Which of the following is a website designer responsible for?

a) Tracking visitors
b) Coordinating website budget
c) All of the above
d) None of the above

Q22 Who is in charge of integrating all the different aspects of creating software?

a) Programmer
b) Software developer
c) Website designer
d) Game designer

Q23 _____ is a component that provides added functions by allowing the Web browser to access and execute files that are included in Web pages.

a) Add in
b) Plug in
c) Extension
d) All of the above

Q24 A group of computers and associated devices that are connected to share resources and
exchange information is called _____

a) Website
b) Network
c) Internet
d) Intranet

Q25 WMA stand for _____
